Tip #1: Start small it pays to start the game with a letter 2 or 5 letters. If you go with two letters, you can escape your least desirable tiles right at the beginning of the game. If you go for five letters, your opponent will create a lay along, following your word. This way, you can score unique goals for your words. Tip #2: Make use of your brick play colored squares on colored squares to make the most of the bonus points. You will be able to score more points by playing DL, DW, TL and TW squares. For example, if you make the park from over four empty squares, you will get 11 points. But if your P is on a TL and K on a TW, then you can win 57 points. Tip#3: Use functional words If you want to score more points, keep in mind some 2 to 3 letters. Also, put stress on words with the yuan and letters J, Q, X and Z. #4 tip: Combine the rewards you should consider to combine some bonus numbers to maximize your points. For example, you can combine the number of bea people with the beath to get the point load. Tip #5: Aim for parallel play attempts to create new words in parallel with existing detections. You can form a few two and three letters this way and win more points. Let's assume you have the word Human in four blank squares. Now you use tiles to make apex words parallel to the human word. This overlap will help you win 70 points. Find the same overlap to your score. Tip: #6 Hooks for more points A hook is added to a word that already exists to create a new work. It's easy to make and can give you rich dividends. You can add letters to the beginning or end of a word to create a new word. Another way to take advantage of the bonus personality is to go for a perpendicular play by adding tiles to the bottom or top of the word. Tip: #7 when asked You have the option to swap your tiles if you don't like them or find them difficult. Don't fear about exchanging your tiles as it is a good move. You can get new tiles and keep recording turns after the turn. Tip #8: Try to do it If you end up with low-value spaces and cony cons, try bingo. You may face difficulties to make words using the tiles, so going to Bingo is a great choice. Try using all your tiles to score 35 full points. Tip #9: Focus on the center Try to play towards the center to prevent your opponent from getting a big scoring opportunity. Don't let your opponent take advantage of the four outer rows and columns, where combining TL and TW is more likely. Tip #10: Apply some defenses your opponent will look to score big points just like you using bonuses and fights. Therefore, your goal should be limited to opening the door to colored squares where it will be favorable for your opponent. You can make one word less in some other part of the board unless you definitely score big. Open the Mac App Store to buy and download apps. Looking for a cheater from free or decoding to help you in Scrabble GO®? Do you need to scan the table to find the best words to play in Words With Friends®? Do you want an inxate finder for Wordscapes®, Wordfeud® or Word Chums®? Are you stuck in any crossword puzzle title like CodyCross®? This 2020 reverse resolution app is for you. Don't you love our inxate decoders for cheats? Go! December 8, 2020 Version 4.0.1 - Fixes errors to prevent applications from responding when rewarded words are unlocked - Fixes errors to behave correct error management when Board Solver failed because the server did not respond - Crash report was moved to the side menu for better usability- Updated back arrow icon It runs nice on my iPad Pro 12.9 and my iPhone has no bugs. For me it is not really a cheat but a help app. This strategy is left completely intact and you still have to know where to put the unscrambled words it gives you. I look at it as an unscrambler word with some very handy tips as a side. Word Finder increased my score per letter average from 15 points to 18 points. It has increased my vocabulary and even my pronunciation and spelling. Much more useful than a dictionary alone. I also found Word Finder to save for me even with the annual service I sign up for, with word games that cost you coins you have to buy or can earn, for hints when I get stuck on a puzzle. I found that even tho I won and lost about the same amount of games from before I used Word Finder, my stats were actually getting much better. Hi Traderback! We appreciate your friend It's great to understand how you benefit from using our app. If there's anything we can do for you, just let us know wfsupport@yourdictionary.com!Have a great day! 🍀 I've always enjoyed games with 'words.' However, the more advanced the game, the harder it is to identify some words; especially after spending a lot of time with them. That's when I used Word Finder. It helps me figure it out sooner than later, and I can move forward in my games! The only limitation I have, is that I opened it, while I was playing my game; and then when I need to use it, I'll touch the screen, and it suddenly restarts all over again! Sometimes it takes up to a minute or more! Frustrating, in the middle of a game! Also, I love Word Finder! Four stars! Thanks for considering Baht Emet! We are glad that you are looking for useful applications. I've been using Word Finder to help word options for Words With Friends for a long time. I use it not only to find words in 7 tiles, but to find other ways to make the words from tiles already on the board. It's a quick way to check out other options. It helps me think outside the box (board!) The developer, LoveToKnow, did not provide details on security practices and data processing to Apple.
